1 Problem

Problem Description : <https://codeforces.com/problemset/problem/231/A>

2 Objective

The meaning of this question is, there are 3 people, and each person will try to find the solution to the n problem given, if more than 1 person can find the solution then they will answer the question, how many questions are there? become? answer. 1 is a sign that a solution has been found, and 0 is not found. each row represents a question.

3 Solution

$n = 3$ (number of question(lines)).

1 1 0

1 1 1

1 0 0

in line number 1 and 2, there are more than 1 number 1, so the answer is 2.

4 Code

```
#include <bits/stdc++.h>
using namespace std;
int main()
{
    int x, cnt = 0, a, b, c;
    cin >> x;
    for (int i = 0; i < x; i++)
    {
        cin >> a >> b >> c;
        int temp = a + b + c;
        if (temp > 1)
            cnt++;
    }
    cout << cnt;
    return 0;
}
```
